SOCAL - 204	Special Olympics SOCAL Coaching Education for Basketball	COMPLETED	4/1/2026

Coaches Education Online Courses

FAQ

When I register for an account, California is not listed as an option when I have to select which USA State I'm a part of. Should I select another state?

Please select Southern California as your USA state.

I can't find a course for the sport I want to become certified in.

Currently, courses are available for the following sports: Basketball, Bocce, Bowling, Flag Football, Golf, Soccer, Softball, Tennis, and Volleyball. Courses for the remaining sports are in process to be published soon. All available courses can be searched using 'SOCAL.'

Do I have to complete the entire course all at once?

No, you can complete the course in multiple sessions. Your progress will be autosaved to the module you left off at. Courses in their entirety will take approximately 90-120+ minutes to complete.

What happens if I don't pass a quiz?

You will have unlimited opportunities to retake quizzes if needed. You may return to previously completed modules to rewatch videos, or view your answers to see corrections.

In my course, it's not letting me move on to the next module.

To advance to the next module, make sure all course content has been watched/completed or the quiz has been passed. Try to refresh the page if needed. If this issues persists, please reach out to coach@sosc.org for support.

I completed the course, what now?

[Download certificate](#)

Congratulations! There is a course completion certificate that can be downloaded for your record. The learning portal does not send you an email upon finishing a course, but your completion will be saved to the portal's reporting system. A sports certification will be updated to your profile in our registration system and you can immediately begin or return to training and competition. Please reach out to your volunteer manager if you have questions regarding next steps for onboarding.
